SOWTER EST. 1941 TRANSFORMERS
A member of the CARNHILL Group

1530 PRODUCT SPECIFICATION

Sowter 1530 mic/line input . Garders MU526 replacement

600CT/2.5+2.5k Ohms 100% Mumetal core and can

Description

600CT / 2.5K +2.5K input transformer. Configurable for 600/10K Ohms or 600/2.5K Ohms. 100% Mumetal core and can. Internal electrostatic shields for maximum noise rejection. A very high_spec transformer with excellent bandwidth, minimal distortion, high level capability with minimal insertion loss. Primary inductance (typical) 12.7H. Primary DCR 13 Ohms max. Secondary DCR 23 Ohms max. Max input level +21 dBu at 50Hz.
