	—— Orange	245V		
	—— Pink	6.3V		
	—— Grey	0V	1.5A max.	
	—— Pink	6.3V		
	Or/Wht	8V		
	Grey	0V	0.6A max.	
	Or/Wht	8V		

Notes

Visual identification – Worldwide version has two white leads, European version has one.

Worldwide connection options:

- \bullet 110v N: join Blue and Black, L: join White 1 and White 2, isolate Red and Brown
- $^{\bullet}$ 120v – N: join Blue and Black, L: join Red and Brown, isolate White 1 and White 2
- \bullet 240v N: Blue, L: Brown, join Red and Black, isolate White 1 and White 2 European connection options:

For mains voltages of 210v, 230v or 250v use Black as Neutral. For 200v, 220v or 240v, use Blue.

ALWAYS isolate all unused leads SEPERATELY FROM EACH OTHER
