

Connection Diagram

Type: 0717

EU Primary	WW Primary				
250V	Brown——	1	20V	Brown——	
230V	Red		10V	White 2———	
210V	White			}	
	}	O/R	0V	Black———	
		1	20V	Red	
	}	1	10V	White 1	
10V	Blue			}	
0V	Black———)	l	0v	Blue———	

Notes

Visual identification – Worldwide version has two white leads, European version has one.

Worldwide connection options:

- \bullet 110v N: join Blue and Black, L: join White 1 and White 2, isolate Red and Brown
- \bullet 120v N: join Blue and Black, L: join Red and Brown, isolate White 1 and White 2
- \bullet 240v N: Blue, L: Brown, join Red and Black, isolate White 1 and White 2 European connection options:

For mains voltages of 210v, 230v or 250v use Black as Neutral. For 200v, 220v or 240v, use Blue.

ALWAYS isolate all unused leads SEPERATELY FROM EACH OTHER

	– Orange	855V	
	– Grey	0V	0.2A max.
	– Orange	855V	
	– Pink	230V	
	– Grey	0V	0.2A max.
	– Pink	230V	
	– Yellow –	6.3V	4A max.
	– Orange 1 –	10V	4A max.
<u> </u>	– Orange 2	10V	4A max.
