

1714

1714

Turns ratio 3CT:0.5+0.5

5k Ω /150 Ω +150 Ω output transformer for driving balanced line from ac coupled cathode follower.

70% Mumetal core for high bandwidth and dynamic range.

Max output level at 50 Hz +23 dBu (11 volts).

Coloured Flying Leads and Mumetal Can

Based on 9042 with twin 150 Ω secondary and no Tertiary winding
