

**5813**

10kohm/10kohm, turns ratio 1:1, max level 9V rms at 30Hz.  
 With electrostatic and electromagnetic screening (mumetal can)  
 Transformer is bifilarly wound for best CR balance.  
 Frequency response on a measured sample was -1dB, 20Hz - 30kHz,  
 with a source of 2kohm and load of 600ohm and input voltage 0dBr.
