

8940a

8940 Teletronix LA-2A DIY. 5K/600 Line op.

Ratio 3:1. 5k/600 ohms output transformer for driving balanced line from ac coupled cathode follower or SRPP circuit. Total dc resistance ref secondary 17 ohms. Colour coded leads. Size A.
Max output level +17 dBu. 50% Mumetal core for exceptional bandwidth and dynamic range.
Suitable for Altec 1566a.

TYPE 8940b

8940 Teletronix LA-2A DIY. 5K/600 Line op.

Ratio 3:1. 5k/600 ohms output transformer for driving balanced line from ac coupled cathode follower or SRPP circuit. Total dc resistance ref secondary 17 ohms. Colour coded leads. Size A. Max output level +17 dBu. 50% Mumetal core for exceptional bandwidth and dynamic range. Suitable for Altec 1566a.

Additional fixing can be made through the holes in the core if deemed necessary
