

9995

9995 Condenser/Tube Microphone output

A very high inductance transformer for matching a tube or FET condenser microphone to a 200 ohm line. E.g. Neumann, Telefunken AKG etc. Ratio 5:1. Exceptional bandwidth. Mumetal core for minimal distortion and dynamic range. Thick Mumetal can for screening. Centre tapped secondary for phantom powering. Colour coded leads and optional mounting grommet. Can size 52.5 x 45 mm dia.
