

SOWTER TYPE 1280 RIAA 600 Ohm EQ Unit

Applications

1.8H /37 Ohms and 45 mH/4.2 Ohms in a single can. Developed for an RCL constant impedance RIAA circuit. Requires external R and C components needs to be driven from a low impedance and terminated with 600 Ohms. Similar to Tango EQ-600P LCR unit. Supplied with threaded grommet mounting as illustrated.
