

SOWTER TYPE 9185 Gates Sta-Level M5167 Line Output Transformer

Applications

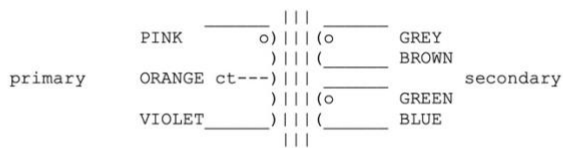

Line output for Gates STA-LEVEL Compressor M5167. Fully shrouded size "J" with colour coded leads. 8000 ohms CT to 150 +150 Ohms ohms. A high-power transformer giving plenty of level and a low output impedance. Configurable for 150 or 600 Ohms output. Circuit available on request. Weight 2.1 Kg.

Mechanicals

COLOUR CODE

9185

2 secondaries: connect in series for 600 ohms.

2 secondaries: connect in parallel for 150 ohms.

9185 GATES M5167 Line Output

Line output for Gates STA-LEVEL Compressor M5167.

Fully shrouded size "J" with colour coded leads.

8000 ohms CT to 150 ohms.

A high power transformer giving plenty of level and a low output impedance.
